

MATH & SCIENCE HYBRID ACADEMIC SUPPORT

We're excited to announce some changes that will affect how we run our sessions starting in September 2016, for the 2016-2017 school year. We'll be incorporating an online academic service into our current in-person academic support sessions using a hybrid style program.

WHAT DOES THIS MEAN?

All of our high school academic support services will now be hybrid. Half of the sessions will be held in person and the other half online, using our interactive, one on one virtual classroom.

WHY HYBRID?

EFFICIENCY & CONVENIENCE

- Save time otherwise spent driving to our Centre and waiting
- Alternative arrangements can be made during special circumstances
- Students can be home and working with their guides as if they were at the same table

ORGANIZATION

- Online scheduling
- Centralized student and guide feedback
- Resources customized for each student
- Online resource links available right away for students to use at home

STRENGTHENING THE TRIANGLE OF SUCCESS

- Better learning is fostered through increased communication
- Online review section available for parental review
- Parents will have access to session feedback and tracking progress

HOW WILL IT WORK?

It's easy! Come in for your usual session once a week, and for your second or third session, connect with us online.
